Name:_____ **ECONOMICS**

****

MAJOR REQUIREMENTS [Undergraduate Student] 2011 - 2015

Courses may be counted toward both Major and General Requirements.   However, no course may fulfill two categories of General Requirements.   If you use any course for both Major and General Requirements, be sure to count the credits only ONCE toward the degree total.   Students planning to pursue a Ph.D. are advised to take Unified Calculus (640:121 and 122), Linear Algebra (640:250), and Mathematical Economics (220:390).

GRADES OF C or BETTER ARE REQUIRED IN ALL COURSES **COURSES REQUIRED**	**MINIMUM CREDITS**	**COURSES COMPLETED** Subj.#: Course #	**COMPLETED CREDITS SEM/YR**		**OFFICE REVIEW**

Minimum Total Credits 42 **Actual Credits Completed** _____

DEPARTMENTAL HONORS PROGRAM:

Students seeking the distinction of graduating with "Honors in Economics" and the experience of intense investigation of a particular topic in economics may do so in the honors program. Eligibility for such a project is judged by the student's qualifications and availability of an appropriate supervising professor with a student with the GPA=3.5 above. The supervisor works individually with the student over a two-term sequence, 50:220:495-496, during the student's last three terms before graduation. Total credits earned are determined by the department according to the nature of the project; a grade is not given until completion of the two-term sequence and department approval of an honors thesis embodying the project. Interested students should contact their academic advisors.

REQUIREMENTS AND RESTRICTIONS FOR INDEPENDENT STUDY PROJECTS

Enrollment in 50:220:491 Independent Study Projects in Economics requires prior approval by the department and the participating faculty member. All independent study projects require at least the same rigors of training, instruction, research, and grading as do other upper-division economics courses. To enroll in 50:220:491, students must have completed nearly all of the course requirements for the major in economics and have achieved a grade-point average in economics of at least 3.0. A student is limited to enrollment in only one independent study project within the economics department each term and a maximum of two during the degree program with a student with the GPA=3.5 above.
